### Machine Intelligence & Data Science (MIDaS) Laboratory @ Yonsei University

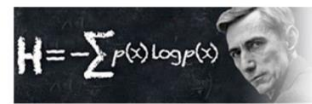

The MIDaS lab has been established in the School of Mathematics and Computing (Computational Science and Engineering) at Yonsei (one of world-wide universities, *ranked 73rd in QS World University Rankings 2023*) and is led by Professor Won-Yong Shin. Our lab focuses basically on data mining and machine learning in broad fields of social media, healthcare, wireless networking, while tackling **real-world data science problems**.

Data Science

Machine Learning

Wireless Networking

### 1. Selected achievements in a year (global top-tier research lab)

- [Deep network completion](#) (IEEE TPAMI; *JCR Top 0.543%*)
- [Sign-aware recommendation using graph neural networks](#) (IEEE TNNLS; *JCR Top 0.926%*)
- [No-show prediction using XAI](#) (npj Digital Medicine; Nature Partner Journal; *JCR Top 0.459%*)

### 2. Benefits

- Tuition fee fully waived + Competitive subsidies offered
- A top-notch lab environment where one can focus purely on research
- Support for attending prestigious international conferences and overseas research programs

### 3. Contact

- Send Prof. Shin your CV with a short research interest by no later than April 14, 2023
- Email: [wy.shin@yonsei.ac.kr](mailto:wy.shin@yonsei.ac.kr)
- Lab webpage: <https://sites.google.com/site/midasyonsei/>
